

TSHOBOKO YA TIRISO YA DIPATLISISO TSA DIPHOGOLO TSA NAGA LE TIKOLOGO MO BOTSWANA

Go ithuta le go tlhaloganya mekgwa ya go somarela diphologolo tsa naga le tikologo ya tsone, Bamaranyane ba dirile dipatlisiso le dithuto tse di tseeneletseng ka diphologolo le mafelo a tlhologo.

Maduo a dipatlisiso tsa go tshwana le tse, a thusa bogogi le batsaya karolo go tsaya ditshwetso tse di nonofileng go tshegetsa tiriso le tsamaiso e e tlhamaletseng ya meamuso e e botlhokwa ya lehatshe.

Maduo a dipatlisiso tsa go tshwana le tse ga se gantsi a aname mo bathong le maphata a a okametseng tikologo le tlhologo ya Botswana.

Mme le fa maduo a dipatlisiso a ka nang teng, ga se gantsi a dirisiwa go tshegetsa ditshwetso kana ditsamaiso tsa puso tse di sha.

Dipatlisiso di dirisa madi le nako a mantsi. Potso ke gore, maduo a dipatlisiso a ka diriswa jang go tiisa ditshwetso.

A go na le ditsela tse di motiya go netefatsa gore botlhe ba ba ka dirisng maduo a dipatlisiso, ba itse ka tsone, ebile ba a di tlhaloganya?

Potso kgolo ya thuto e, ke go sekaseka mekgwa e ba babatlisi ba tsa maranyane ba amanang le ba ba ka dirisng maduo a dipatlisiso tsa bone.

Ikemisetso ya thuto e, ke go sekaseka ditsela di le mmalwa, tse di nonofileng tse di ka tokafatsang kamogano ya maduo a dipatlisiso tsa go tshwana le tse magareng ga ba nang le keletso ya go itse, le ba tlhokang kitso e ntsha.

Thutuntso e e dirisa metlhala e le e meraro go sekaseka dipotso tse: Kitso ya babatlisisi bagolo ba ba neng ba dirisa tetla ya dipatlisiso tsa puso ya Botswana, phutego e babatlisisi ba neng ba tlhalosetsa morafe tiro ya bone le dithuto tse baithuti ba di dirileng ka diphologolo tsa naga le tikologo ya Botswana.

Itemogelo ya thuthuntso e, ke gore fa babatlisisi ba itomaganya le ba ba ka dirisng maduo a dipatlisiso go tswa tshimologong, mme ba tswela ba arolelana kgotsa ba kgaogana kitso le dikgang go fitlhela bokhutlo ja tiro, go ka nna le tsamaisano o molemo.
