Enabling global reach and discoverability of African research data

## Speaker profile

### Mark Hahnel

ORCID: [0000-0003-4741-0309](https://orcid.org/0000-0003-4741-0309)

**Mark Hahnel** is the founder of Figshare, which he created whilst completing his PhD in stem cell biology at Imperial College London. Figshare currently provides research data infrastructure for institutions, publishers and funders globally. He is passionate about open science and the potential it has to revolutionise the research community.

## Speaker profile

### Maria Cotera

ORCID: [0000-0002-1375-0738](https://orcid.org/0000-0002-1375-0738)

A former academic librarian and currently partnerships development manager at Figshare, **Maria Cotera** supports open science and responsible research by developing strategic relationships which bring Figshare data and institutional repositories to universities and research institutes across Africa, the Middle East, Southern and Eastern Europe.

## About the webinar series

This webinar was co-organized by [UbuntuNet Alliance](#) and [Access 2 Perspectives](#) as part of the [ORCID Global Participation Program](#).

[ORCID](#) is the persistent identifier for researchers to share their accomplishments (research articles, data, etc with funding agencies, publishers, data repositories, and other research workflows.

[AfricArXiv](#) is a community-led digital archive for African research communication. By enhancing the visibility of African research, we enable discoverability and collaboration opportunities for African scientists on the continent as well as globally.
